University of South Florida is Florida's leading metropolitan research university. In 2018, USF skyrocketed into the top 25 public universities for research expenditure, becoming at the forefront of cutting-edge research of science and engineering.

The **Florida Center for Cybersecurity (Cyber Florida)** is a state-funded organization dedicated to positioning Florida as a national leader in cybersecurity through education and workforce development; innovative, interdisciplinary research; and community outreach. Hosted at the University of South Florida, Cyber Florida works with all 12 State University System of Florida (SUS) institutions as well as industry, government and defense to build partnerships and develop programs that grow and strengthen Florida's cybersecurity industry.
